

## **THIS IS THE CONDENSED VERSION OF THE STEPS NEEDED TO GET A HOME...**

- 1. Find out if you can qualify for a loan. You can do this on our website where it says “Get Pre-approved now”.**
- 2. Determine where you’ll put the home: manufactured home community, land you currently own, or land you plan to purchase.**
- 3. Come to Ramsey-Jones and look at the 20 plus, mostly heated, homes on display or look thru our literature for other floor plans. Then make a selection with help from one of our professional home consultants.**
- 4. Meet with our site foreman and your construction contractor (we have some names of a number of contractors in the area). Look at the site with these experts to determine construction details.**
- 5. Gather costs for your choice of homes and site construction.**
- 6. Finalize the loan.**
- 7. Place the order for your home if it’s not one of our display homes.**
- 8. Get your site work completed.**
- 9. Take delivery on your home.**
- 10. Move – in!**
